Subject

Letter No 119 of 4 August 1903 from Dr A Lehmann, M A, B Sc A, Ph D, Agricultural Chemist forwarding a letter from Mr S L Maddox offg Director Dept of Land Records & Agriculture, Bengal, re the inclusion of the Head Master of the Raipshahi Agricultural School in the batch of pupils to be deputed to study Sericulture at Mr Tata's Farm, at Bangalore

In June last Mr Tata a reply to a communication [illegible] the Superintendent of Sericulture, Bangalore which was referred to them by the Collector, informed the Secretary, Sericultural School at Bonlea (Rajshahi) Bengal, that the Farm (Silk) at Bangalore was not a public School of instruction as he seemed to believe - it was only an experimental Farm started by him, as a private concern, for the sake of Experimenting in this line of Research that some time ago he had occasion to write to Mr Mollison, Director of Agriculture on the subject of sending some Students from Bengal to study at

compare the Japanese method of work with that in Bengal that it was not open to all school boys and apprentices, who might be desirous of learning this industry that there was no room or such accommodation to take up any, for a long time, as he (Mr) thought that he has already granted permission to the Superintendent to send four or five pupils to learn Sericulture on his Farm and that if the Superintendent was written to about taking one or two from here they would, if they have not completed their arrangements by the time he wrote, be glad willing to help them in the direction

In this the Chairman of the District Board, Rajshahi requested the Director of the Department of Land Records and Agriculture, Bengal to inform him whether he was going to accept the Superintendent to include the Head Master in the number of five pupils to be sent by them to his Talab Farm

The Director of the Department of Land Records and Agriculture, Bengal now requests the Director of Agriculture, Govt of Bengal, to inform, with the permission of Govt (Bengal), the Head Master of the Rajshahi Sericultural School on the batch of pupils it is deputed by this Govt to study Sericulture

Mr Salas Farm, at Bruguiere

The Agricultural Chemist forwards the above correspondence and states that it was sent to him by mistake and that many days ago he has replied to it forwarding to this office

11/8/03 Where are the
HK connected papers?
Have any samples been
ordered by the Govt to be sent
to the farm?

12481/27 VIII 03

By all means, ask the Dy what he has done to give effect to para 7 of our order. But I cannot see how we can give a teacher from Bengal the benefit of what was expressly intended for our & other Masters in the Bangalore District - Our men have to be selected sent for training & given scholarships - I would explain the case & say Govt regret their inability to comply - 23/8/03

Have in no way connected with Mysore, & why should the Mysore Govt [illegible] know to the Rajas' farm? If true, the Raja suggestion. But I think we should send a polite letter declining -

all right - that is how they
be now made out

28 VIII 83 (Wed)

Two drafts are sent for approval in obedience to the above orders

The Agricultural Chemist forwards copy of a letter
from the Manager of the E. I. S. Book Depot, Bangalore
& requests to be informed of Govt's rules & conditions
for training at the Govt Silk Farm - or if there is any
arrangements for Students being taught at that Farm

Letter No 9 1142920 d/9-9-03 to Sd Maddox Esqr
Offg Director of the Dept. of Land Records & Agriculture,
Bengal (marked) Agreed from the Educational Branch
furnishes the information above required.

Subd
may they also be transferred
to DJL Branch for
AHC 12/11/03

Yes 12/11/03 D Tr.

The Tata Farm which is at Bangalore is purely Mr J N Tata's (of Bombay) own. The Govt has no control over it. The Dpt has obtained the permission of Mr Tata to get village school masters trained in it.

May a copy of the Govt order No 14668-77/Ed F 4-96 dd the 7th April 1903 be forwarded to Dr Lehmann in reply to his letter under reference.

Submitted for orders. 17/11/03

Kgs
17-11-03)

Say that arrangements have been made with the Private Secy of Mr Tata to send a few Schoolmasters to be trained but that there is no scope to teach & train up Private Students.

DISTRICT BOARD'S OFFICE, RAJSHAHI

No 829

From

A Garrett, Esq I C S

Chairman of the District Board

Rahshahi

To

The Director of the Department of

Land Records and Agriculture Bengal

Dated Boalia the 3rd July 1903

Sir,

In continuation of this office No 582 dated the 15th June 1903 I have the honour to forward herewith a copy of Mr Tata's reply in response to certain references made to him and to request you to let me know whether you are going to address the Mysore Government to include the Head Master in the number of 5 pupils to be sent by them to Mr Tata's Farm

I have &c ,

(Sd) A Garrett

Chairman

5

Victoria Buildings Fort

Bombay, the 24th June 1903

To

The Secretary

Sericultural School at Boalia (Rajshahi)

Bengal

Sir,

Your letter No 20 dated Boalia the 13th instant addressed to the Superintendent of Sericulture Bangalore has been redirected here for reply

I may at once say that the said Farm at Bangalore is not a public school of instruction as you seem to believe It is only an Experimental Farm started by me, as a private concern for the sake of experimenting in this line of Research I had occasion some time ago to write to Mr Mollison Director General of Agriculture on the subject of sending some of his men from Bengal to study and compare the Japanese method of work with that of Bengal But it is not open to all school boys and apprentices who may be desirous of learning this industry and there is no room or such accomodation to take up any for a long time as you seemed to think

I may by the way mention that I have already granted permission how to the Mysore Government to send four or five pupils to learn sericulture on my Farm So you have now only to write to the Mysore Government to co-operate with you in taking up on or two from your side and I am sure, if Mysore State have not completed their arrangements by the time you write to them, they will be too willing to help you in the direction

Yours &c

Sd/ J N Tata

7 D (3) No 1429 dt 9th Sept 4/03

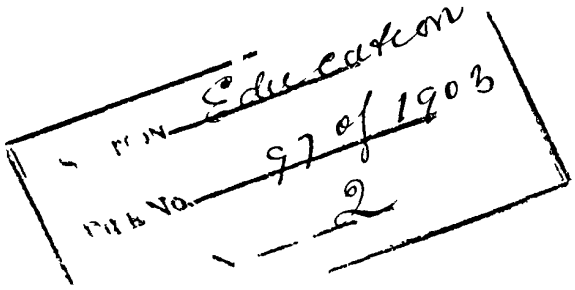
To

S L Maddox,Esq,I C S ,

Offg Director of the

Department of Land Records and

Agriculture,Bengal



Sir,

I have the honour to acknowledge receipt of your letter No 1527A dated the 9th July '03 addressed to the Director of Agriculture in Mysore, requesting that the Head Master of the Rajshahi Sericultural School may be included in the batch of pupils to be deputed by the Mysore Government to study Sericulture at Mr Tata's Farm at Bangalore

I am to state in reply that the Silk Farm at Bangalore is solely Mr Tata's own and the Inspector General of Education in Mysore (Mr H J Bhabha) has obtained the ~~kind~~ permission of that gentleman that the Mysore pupils (Vil-

(Village School Masters) might receive instruction under the Japanese expert who is the Superintendent of the Farm. What accommodation is available at the Farm and whether the Expert is prepared to teach other pupils are questions over which the Mysore Government has no control

In view to promote the Silk industry in Mysore the Govt ~~at~~ on the recommendation of the I.G.of Edn have availed themselves of the advantage of Mr Tata's Farm as an experimental research. Under the present arrangement the Mysore pupils will receive monthly scholarships and each batch will consist only of a small number of 5 pupils . The Course ~~will only last for 3~~ extending only over months.

As the arrangement is only for the benefit of the Mysore pupils , I am to state , the Government regret their inability to accede to your request.

I have the honour to be

Sir,

For Secretary.
